Sustainable Biodiesel Alliance:

The Sustainable Biodiesel Alliance (SBA) addresses issues concerning the sustainability of the U.S. biodiesel industry. The SBA has partnered with GreenCircle Certified, LLC to create a certification process for evaluating and branding sustainable biodiesel production. GreenCircle is in the process of adapting the SBA's established Baseline Practices for Sustainability to objectively evaluate the feedstock providers, producers, distributors, and end users of biodiesel.

ASTM International Member:

Formed in 2008, the ASTM Committee E60 on Sustainability has approximately 550 members on three technical sub-committees. ASTM members help develop sustainability standards that are published in the Annual Book of ASTM standards. These international standards help increase the sustainable development of products. By joining ASTM E60, it is GreenCircle's goal to help drive sustainable development. GreenCircle can provide expert input which can contribute directly to these published sustainability standards and drive continuous improvement throughout the marketplace.

The Sustainable Purchasing Leadership Council

The Sustainable Purchasing Leadership Council is a non-profit organization whose mission is to support and recognize purchasing leadership that accelerates the transition to a prosperous and sustainable future. Using collaboration among members, the Council aims to enhance clarity, consistency and coordination around sustainability in the institutional procurement marketplace. As part of the organization's Founder's Circle and as a Market Advisor, GreenCircle will utilize its industry expertise to provide insight.

LEED Green Building Rating Systems:

Products certified through GreenCircle demonstrate conformance with the Materials and Resources criteria for recycled content for building products, as specified in the USGBC Leadership in Energy and Environmental Design (LEED) Green Building Rating Systems. GreenCircle certification can be used as documentation for recycled content and rapidly renewable within LEED projects.

Home Innovation Research Labs:

GreenCircle is recognized by the Home Innovation Research Labs as a valid third-party certifier of recycled content. GreenCircle will help manufacturers achieve the Home Innovation Research Lab's 'Home Innovation NGBS Green Certified' products label to earn points toward certifying a building under the National Green Building Standard. The Home Innovation NGBS Green Certified mark is also intended to facilitate the verification of the green practices incorporated into the building during field inspections by providing the accredited verifier with assurance that the product is eligible for the points claimed by the builder.

Pennsylvania Recycling Markets Center (RMC):

The RMC, the leader in developing recycling markets in Pennsylvania, has formed an exclusive partnership with GreenCircle Certified, LLC to establish a voluntary, independent evaluation process to certify products with recycled content. The ultimate purpose of this partnership is to enhance the RMC's mission of building recycling markets in Pennsylvania – by driving an increase in the use of recycled raw materials and encouraging the manufacture and sale of more products with recycled content.

GreenWizard:

GreenWizard enables the design and construction community to better manage products and simplify the process of building healthy, sustainable and efficient buildings. GreenCircle's partnership with GreenWizard is another step forward in its drive to provide consumers with a reliable source of information on sustainable products.
