Product Name: *MasterSeal NP 1 Tan*

March 9, 2017

Material Ingredient Reporting for LEED v4, Option 1 Manufacturer Inventory

BASF Corporation, Construction Chemicals division certifies the following information for MasterSeal NP 1 Tan - 30634839.

A complete content inventory for this product to 1,000 ppm is provided based on the addenda to Option 1 of the Building product disclosure and optimization – material ingredients credit released by the U.S. Green Building Council on April 5, 2016. The information generated is based on the BASF Product Compliance Management Process which has been third party audited by GreenCircle Certified, LLC (GreenCircle). GreenCircle has verified that BASF's Product Compliance Management System assesses the hazards of all the ingredients that make up a product, including impurities. This assessment has verified all hazard classification, assessment and communication is conducted within the provisions of North American countries' regulatory requirements.

1. Publicly available ingredients are identified by name and Chemical Abstract Service Registration Number (CASRN)
2. Ingredients defined as trade secret or intellectual property have been withheld; however, the role, amount and hazards based on screening for the levels of ingredients presented are reported on this page per the requirements of the Globally Harmonized System of Classification and Labelling of Chemicals rev. 6 (2015).

BASF Corporation - Construction Chemicals

We create chemistry

Publicly Available Ingredients	
Substance Name	Substance CAS Number
Limestone	1317-65-3
Titanium dioxide	13463-67-7
talc	14807-96-6
calcium oxide	1305-78-8
Stoddard solvent	8052-41-3
toluene-2,6-diisocyanate	91-08-7
trimethoxy(3-(oxiranylmethoxy)propyl)silane	2530-83-8
toluene-2,4-diisocyanate	584-84-9

Proprietary Ingredients		
Role for proprietary substances	Ingredient Amount (% by weight)	Hazard Category
Polymer	60-70%	Below GHS reporting threshold
Plasticizer	<5%	Below GHS reporting threshold
Polymer	<5%	Below GHS reporting threshold
Reactant	<5%	Below GHS reporting threshold
Anti-oxidant	<5%	Below GHS reporting threshold
Residual monomer	<5%	Below GHS reporting threshold
Polymer	<5%	Below GHS reporting threshold
Filler	<5%	Below GHS reporting threshold
Pigment	<5%	Below GHS reporting threshold
Solvent	<5%	Below GHS reporting threshold
Stabilizer	<5%	Below GHS reporting threshold
Reactant	<5%	Below GHS reporting threshold
Polymer	<5%	Below GHS reporting threshold
